

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicant	: Tetsuo Kojima et al.	Art Unit	: 1646
Serial No.	: 10/511,993	Examiner	: Michael D. Pak
Filed	: March 28, 2005	Conf. No.	: 4551
Title	: METHODS OF SCREENING FOR AGONISTIC ANTIBODIES		

**Mail Stop Amendment**

Commissioner for Patents

P.O. Box 1450

Alexandria, VA 22313-1450

**RESPONSE TO RESTRICTION REQUIREMENT**

Responsive to the action mailed July 6, 2007, applicants elect Group I. Applicants traverse the restriction requirement on the grounds that it was improperly done. For example, only claims 1-34 are pending, as indicated on the Office Action Summary, yet the restriction requirement purports to address nonexistent claims 35-36 and 39-42. Additionally, claims 19-22 and 26-33 are identified as belonging to multiple groups. Furthermore, Group V, identified by the action as drawn to "a method for modulating the transcriptional activity," does not appear to relate to the subject matter recited in any of the pending claims.

Applicants suggest the following alternative restriction:

Group I, claims 1-13, drawn to methods of screening for agonistic antibodies.

Group II, claims 14-28, drawn to methods of screening for agonist multispecific antibodies.

Group III, claims 29, drawn to methods for producing agonistic antibodies.

Group IV, claims 30-33, drawn to cells that expresses the antibodies.

Group V, claim 34, drawn to multispecific agonistic antibodies.

Should the examiner agree with applicants' suggested restriction, applicants would maintain the election of Group I, and would withdraw the traversal.

**CERTIFICATE OF MAILING BY EFS-WEB FILING**

I hereby certify that this paper was filed with the Patent and Trademark Office using the EFS-WEB system on this date: September 05, 2007
